

Oregon Business readers say...

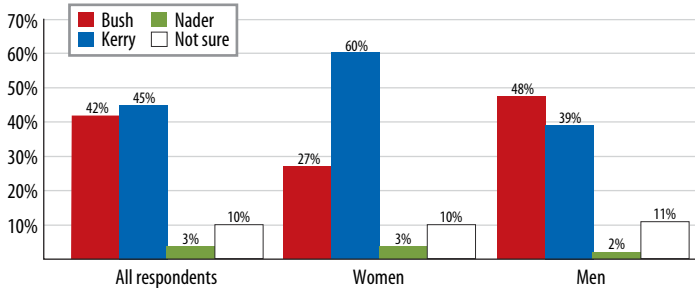

How is George W. Bush doing as president?

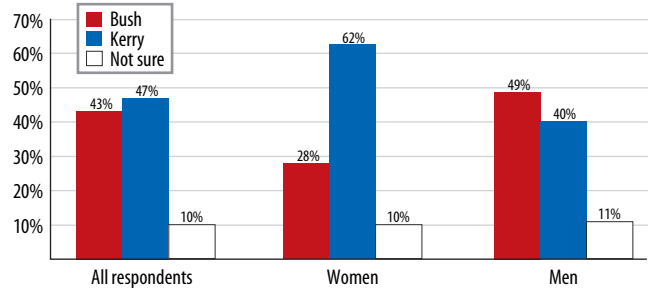

How is Ted Kulongoski doing as governor?

Who do you support for president in a three-way race?

Who do you support for president in a two-way race?

Oregon Business teamed with research firm Conkling Fiskum & McCormick to produce **Input**, a quarterly online poll of readers about business, economic and political issues. Below are some results from the first installment of **Input**. The results are based on an Internet survey completed by 770 Oregon business leaders and decision makers in late May. We wanted you to get the inside scoop on this group's opinions of the performances of President George W. Bush and Gov. Ted Kulongoski as well as people's preferences of presidential candidates.

Thank you for participating in the launch of **Input** and sharing your views. For more **Input** data, check out the July issue of **Oregon Business**. – The editors
